Commissioner's Notice.

Office of R. B. Scott, Jr., Commissioner in Chancery, Marlinton, West Va., August 15, 1898.

Pursuant to a decree of the Circuit Court of Pocahontas County, entered on the 21st day of June, 1898, in a chancery cause therein entitled:

N. C. McNeil
vs.
Joseph Stinson and others,

will proceed at my office in the town of Marlinton, West Virginia, in the 12th day of September, 1898, to take, state, and report to court the following matters of account, to-wit:

- First: A statement showing the amount advanced by the defendant, Joseph Stinson, to plaintiff, N. C. McNeil, under several negative legal dignities and priorities.
- Second: What land the said defendant owes in this county subject to said liens.
- Third: Whether or not the said lands will rent in five years for a sum sufficient to discharge the said liens.
- Fourth: Any other matter to be judicially stated, demanded, perfected by myself or required for any party interested to be so stated.

At which time and place all parties interested in this matter of controversy may attend.

Respectfully,
R. B. SCOTT, JR.,
Commissioner in Chancery

NOTICE TO LIEN HOLDERS.

To all parties holding liens by judgment or otherwise on the real estate of any part thereof of Joseph Stinson:

In pursuance of a decree of the Circuit Court of Pocahontas County made by a justice therein tried, to satisfy the said estate of the said Joseph Stinson, for the balance of the four thousand nine hundred and thirty dollars (\$4,930) standing due from him to the said N. C. McNeil, by virtue of certain promissory notes, bonds and mortgages to wit on the 15th day of August, 1898, he has given notice to each and every of them to appear at the said Court House, at the town of Marlinton, West Virginia, on the 12th day of September, next, to show cause why such lien should not be satisfied out of the proceeds of the sale of the real estate of the said Joseph Stinson, which said real estate was sold pursuant to a decree of the said Court made by a justice therein tried, to satisfy the said debt of the said Joseph Stinson to the said N. C. McNeil, by virtue of certain promissory notes, bonds and mortgages to wit on the 15th day of August, 1898.

THE SARATOGA CONFERENCE.

One of the most remarkable meetings of the season was the Saratoga conference a week or two since. The great purpose in view was to be the exposition of the "manifest destiny" of the American United States, as it appears from the tenor of the omens and addresses that were considered and published. While no authority is claimed, yet somebody will be greatly disappointed if the opinions expressed be not energized and put into use by governmental forces sooner or later.

The changes were rung upon the idea that it is an national duty to supersede incompetent people like the Spaniards, the Greek government, furnish academic and industrial schools, and such other assurances when they are wanting the Philippines, Cuba, and other countries of like character, must be appropriated by the Americans in order they may become civilized and enlightened.

Should this Saratoga bee get in Uncle Sam's expansive hat, and he should come to think that all this is his duty and should endeavor to fill his hands for a long while to come. His responsibility would be simply stupendous, such as was never assumed hitherto.

Many are the countries in our world that are governed worse than Cuba or the Philippines have ever been in historic time. A great part of Europe, much of Asia and Africa, nearly all of Central and South America require the attentions of a government very deeply impressed with a sense of the duty urged by the Saratoga Conference. When our people become fully imbued with the Saratoga sense of duty, one of the first things to do in order to give them peace of conscience will be to sweep the Sultan from Turkey, the Czar from Siberia, the Emperor of Morocco and scores of other rulers who keep their people in ignorance and poverty. The Saratoga duty seekers however seemed to have overlooked the fact that it has been long since there were persons in the United States just as good as they are by nature and experience, who thought the United States were not governed by the all intelligence, sense of duty, and equity that were desirable.

When we consider the personnel of the Saratoga duty seeking conference and then reflect, what a grand thing it would be for the tobacco, sugar and iron industries to have unrestricted use of Cuba and the Philippines, we feel that they may be somewhat related to the duty loving and duty seeking, conscientious Nicholas Bulstrode, or Middlemarch notoriety. His fortify in the ability he possessed and exercised of translating his own convenience into other people's duties. Bulstrodean seems to be looked into, and our people not assume too much out of a sense of duty for the convenience of interested parties. S. C. RISBLEN.

Talk at a Mark.

Learning does not necessarily imply wisdom in the one that makes a pretentious claim to have it.

That youngster and a bright thing who had been at a festival when young men proposed the girls dispose of the men.

When one comes to think of it there is really no man who lives a useless life. He may serve as an example for others to avoid.

When it was asked what it is to be in debt over head and ears the answer was given as person who lives for their hate or bonnet that is the way they are in debt over head and ears.

If prison bars could talk like the photograph this would be about what they would verify to. The man who starts out to look for trouble usually ends by coming here to get a rest.

As an illustration how to make a little and save a heap, it is said that General Weyler was governor of the Philippines for four years at a salary of forty thousand a year, and saved a million dollars out of his income. It is believed there are others who have found out how it may be done.

Macaulay

It is told in reminiscences of the historian Macaulay that when he was about to be sent from home to school, while yet a very small boy, his mother told him that hereafter he would have to learn to study without the solace of bread and butter. The reply was prompt but rather pompous.

"Yes, mother, industry shall be my bread and attention my butter." When he was about four years old he was on a visit with his mother at Lady Waldenbury's, Strawberry Hill. A servant put out coffee over his legs. After sipping a little while the lady asked him how he was feeling. He replied in a very dignified manner: "Thank you, madam, the agony has abated."
